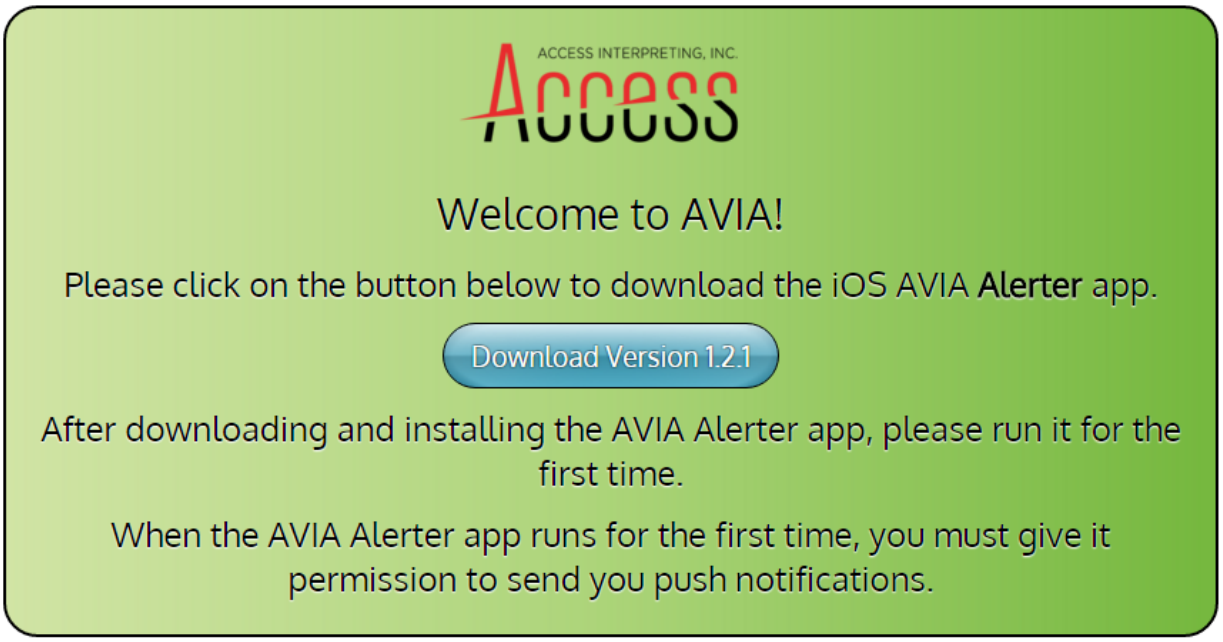
# How to install alerter on iOS 9.0.1 or later

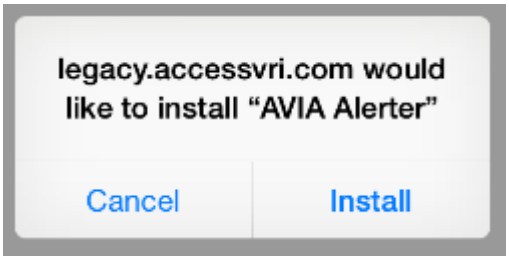
***Note:*** *If you have older version of alerter already installed on your iPhone, you must uninstall it first.*

1. Download the alerter by going to https://accessvri.com/download
2. Click on iOS AVIA Alerter App

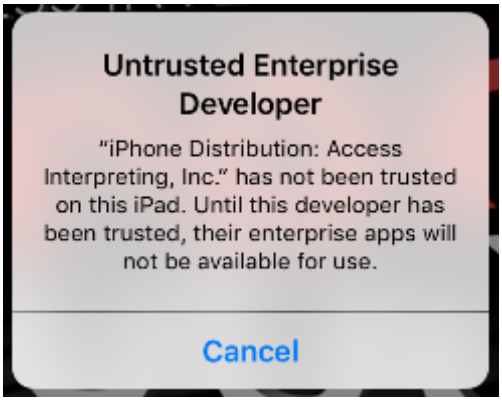
3. Click Download Version 1.2.1



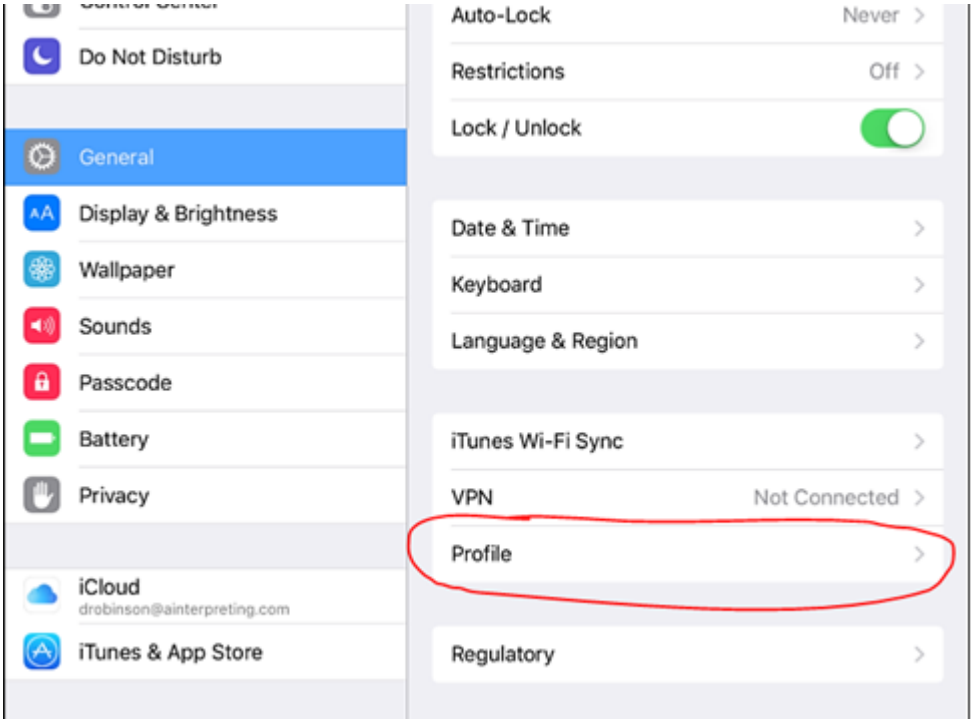
4. After you have finished downloading, you will be prompted to install the app



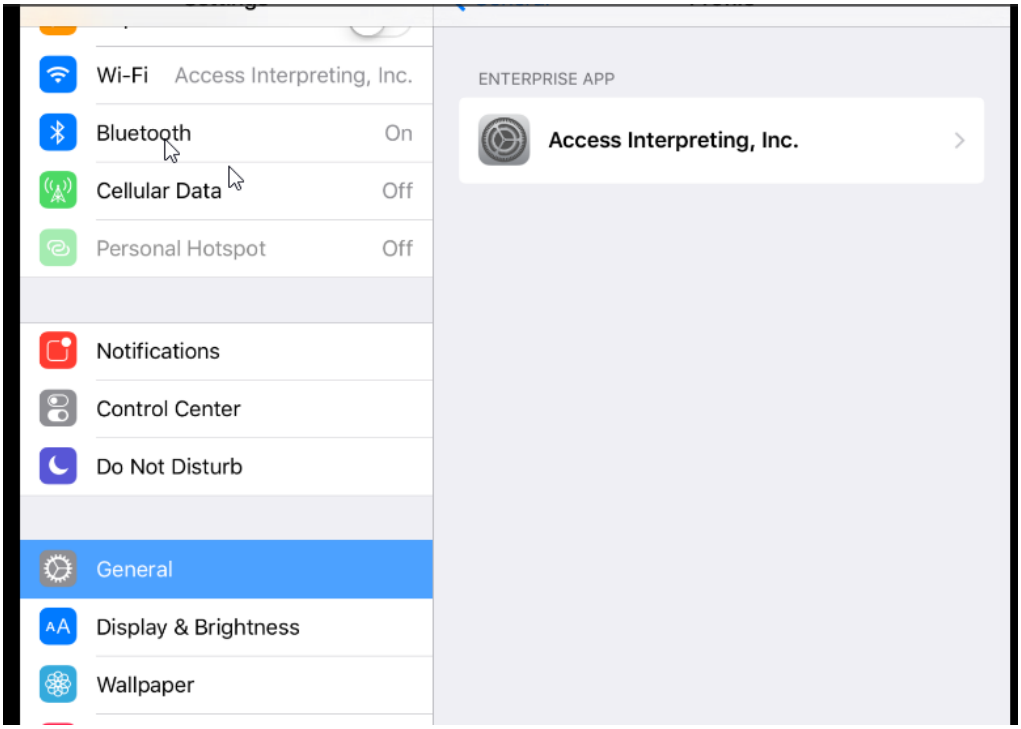
5. Click on Install to install the app
6. You may be prompted another message saying the app is untrusted



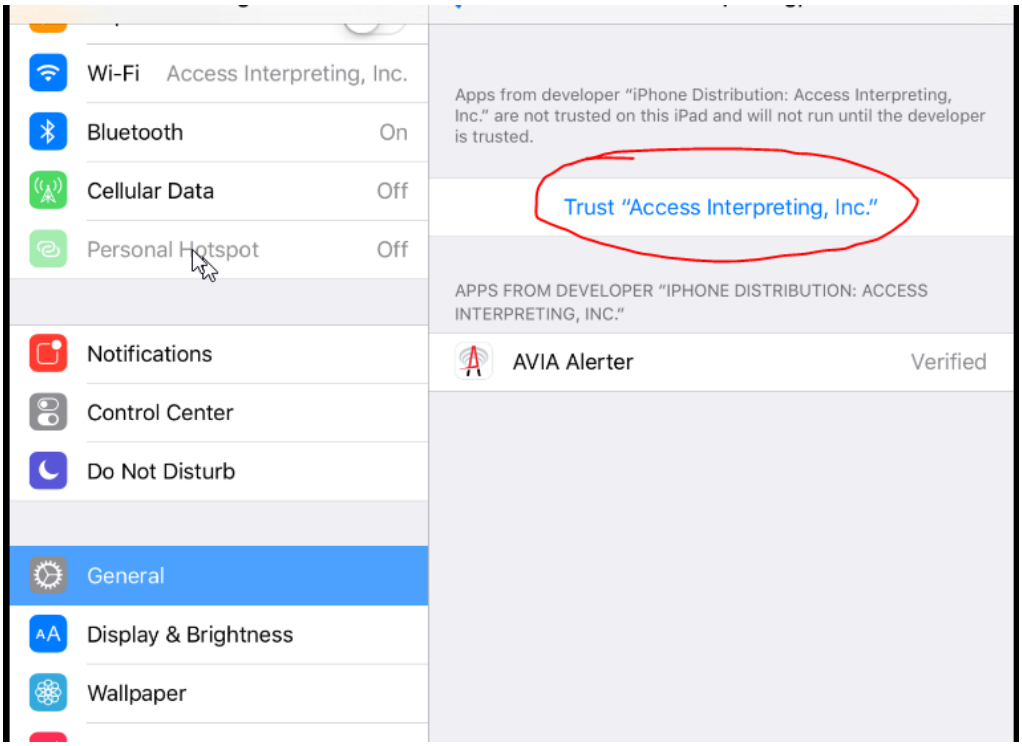
7. Click Cancel and open up Settings
8. Click on General and navigate to Profile



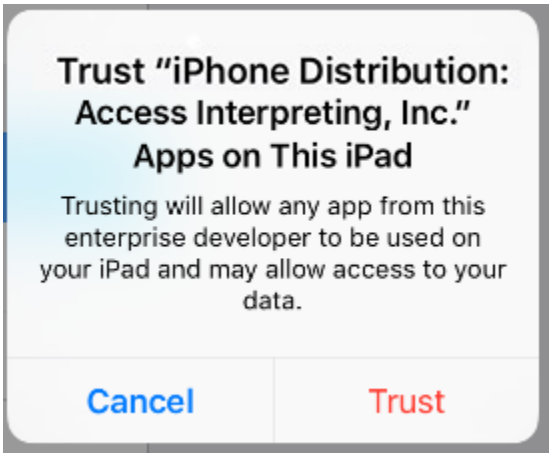
9. Click on Profile, you will see Access Interpreting, Inc. listed



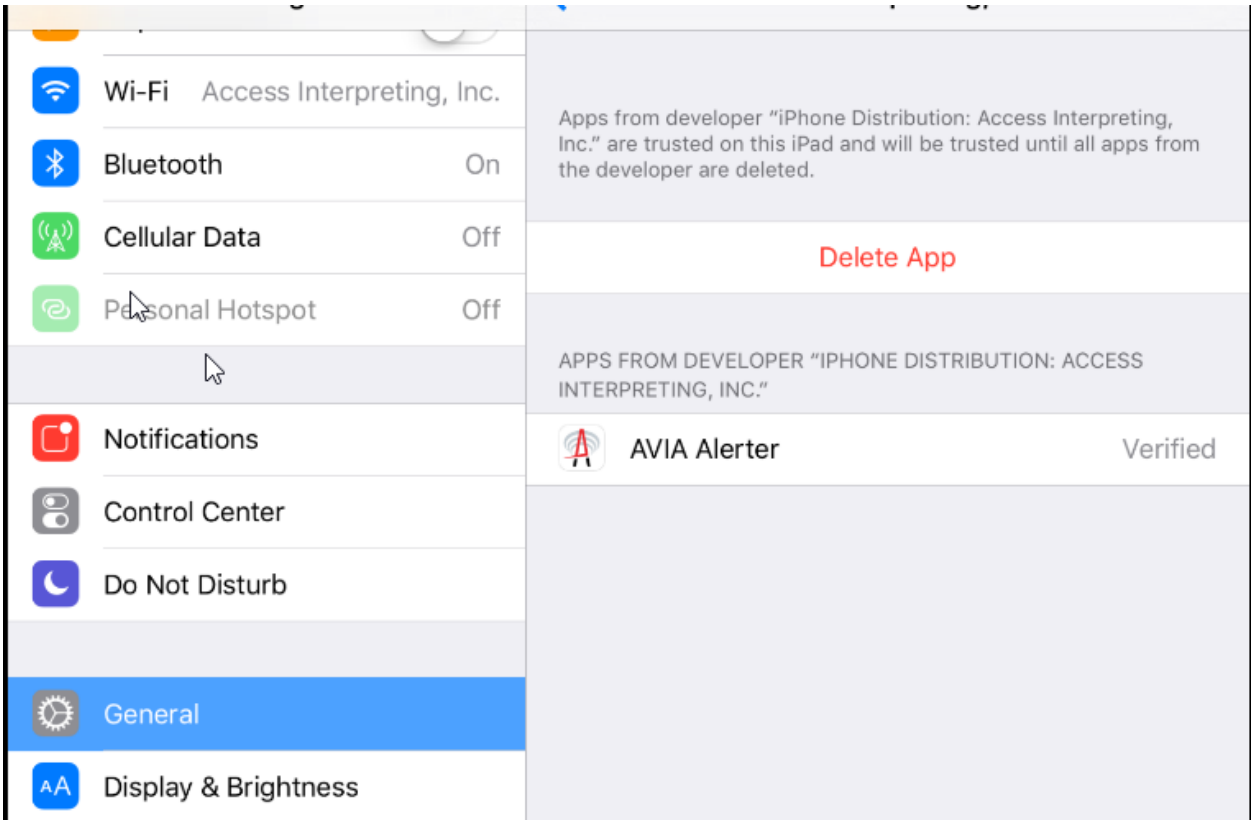
10. Click on Access Interpreting, Inc. will take you to another page that has a link for you to trust the app



11. Click “Trust” to trust the app so you can start using it



12. Whenever your app has been trusted, you will see “Delete App” shown, that will let you know that your app has been trusted



13. Navigate back to your home screen and locate AVIA Alerter app and sign in to begin your work
